Innovative Collaborative Transformative

Occupational Health Professionals (“OHP”) provides innovative Work Health and Safety (WHS) services. OHP collaborates with organisations to achieve excellence in the health, safety and wellbeing of your employees.

WELCOME

Occupational Health Professionals

Our services represent a committed trusted brand, dedicated to enhancing your WHS performance with measurable and sustainable improvements.

Founded in 1985, our focus is to deliver efficient, consultative solutions to all industry sectors.

We specialise in reducing organisational risk and enhancing performance. As a WHS service provider we specialise in the following core services;

Our Services

WHS RECRUITMENT – Permanent & Contract Talent

At Occupational Health Professionals we foster long term business relationships forged on professional ethics. Our specialist service is committed to providing a positive experience, built upon a trusted professional network, excellent market knowledge and industry expertise. Our team is passionate on delivering quality customer service outcomes and is dedicated to achieving the goals and objectives to ensure the best talent and expertise for organisations.

MOBILE HEALTH MONITORING

At Occupational Health Professionals we deliver mobile health monitoring programs to all industry types. Broadly, the WHS Regulations have Australian business focussed on identifying key hazards in their work environment and in response building robust control measures. Our mobile health programs include the following services; Audiometry, Respiratory Function (Spirometry), Respirator Fit Testing, Chest X-rays and Vision Screening. Our mobile health clinics operate throughout NSW and beyond to deliver client focussed programs.

WHS MANAGEMENT CONSULTING

At Occupational Health Professionals, we understand complying with legislation requires a tailored whole of business solution to fit your organisation's culture and risk profile. Our multi-disciplinary team will offer bespoke and practical solutions to address health or safety risk in your workplace. Our team of consultants are industry leaders providing experience, expertise and excellence. Our services offerings include but are not limited to; Training, Risk Assessments, Gap Analysis, Safety Reviews, Pre/Post Certification Audits, Incident Investigation and Management System Development.

OCCUPATIONAL HYGIENE

At Occupational Health Professionals, our Occupational Hygiene team are certified with the Australian Institute of Occupational Hygienists (AIOH) and are Chartered Members of the Safety Institute of Australia (SIA). Occupational Hygiene is the science and discipline surrounding a worker's health and wellbeing. Workers may be exposed to chemical, biological, physical, noise, temperature, radiation and ergonomic risks or hazards in your workplace. We anticipate, investigate, assess and develop risk management controls for your workplace.
